

## **Slow Food Wallawas**

### **Equity, Inclusion and Justice Commitment**

1. Cultivate relationships with other local non-profit organizations that are serving diverse or underserved groups.
2. Broaden our producer grant audience to include food-related businesses. Producers require land, which many people do not have access to due to racial history and economic opportunity.
3. Educate ourselves and our community by providing articles or other information surrounding inclusion, equity and justice within the food systems.
4. Collaborate with a local partner organization to educate our board, members and followers on issues of racial injustices in a program in winter 2021.
5. Explore land use policies within Wallowa County and advocate in cooperation with Oregon Community Food System Network to support inclusion, equity and justice within those policies.
6. Produce Slow Food Wallawas marketing products (such as newsletter issue, a bookmark or other material) with a statement of our commitment to an antiracist food system for distribution through our publicity and networks.
